## **US 150 at Koerner Rd. / Trigger Rd. in Peoria County**

**PEORIA** – The Illinois Department of Transportation announces that installation of temporary traffic signals at the intersection of US 150 and Koerner Rd. / Trigger Rd. in Peoria County will begin Friday, April 8.

The signals are being installed in advance of road widening work at this intersection, scheduled to begin in early May. The signals will be activated at that time, as US 150 will have reduced lane widths and no left turn lane during construction.

The overall project includes pavement widening, radius and drainage improvements, installation of traffic signals, milling and resurfacing work. The project is expected to be completed by late October.

Please slow down and use extreme caution while driving through all work zones.
